### Dependent Child **Case Promises To** Be Interesting

The appeal case to come before 1—All drinking places will be the Circuit court in the matter closed at 1 a. m. throughout the State, instead of at 2 a. m. of the estate of Beverly Jean Young, a dependent child, prom-!

It appears that the infant child of Letha Young was placed in the home of Mr. and Mrs. Byron Watson at Vanderbilt where it was cared for since early in the year 1933 until September, 1934 -17 months in all. In the meantime the Watsons made no effort to adopt the child. A year ago Vivian Peterson, county welfare agent, apparently with the back-ing of the State Welfare association, petitioned the probate court of Crawford county for an investigation, alleging that the home was not a proper home. Whereupon Judge Geo. Soren-

son issued such an order for investigation, resulting in a report that "the home, being a welfare home, was not a proper home for the child." Accordingly Judge Sorenson issued an order that Mrs. Peterson take custody of the child until further investigation could be had.

After 17 months in a home one becomes quite attached to a child and Mr. and Mrs. Watson appealed to the citizens of their home town of Vanderbilt for assistance in helping them retain custody of the child. Therefore a petition signed by 37 citizens of that town, which apparently made up about the entire population, asked the court to have the child returned to the Watson

Judge Sorenson decided that he would prefer that a disinterested probate judge hear the case of the petitioners, and Judge Bowman of Roscommon county heard the case on February 14th last. Several witnesses sworn and much testimony taken after which Judge Bowman decreed that the child be returned to the custody of the Watsons. On the same day the latter filed declaration for the adoption of the child, and Judge Sorenson entered an order confirming the

Now Mrs. Peterson, in her capacity of County Welfare commissioner, has appealed the case to the circuit court. Mrs. Peterthat side will be represented by counsel of Prosecuting Attorney Merle F. Nellist of Grayling, and Harry S. Toy and Albert T. Washburn of the Attorney General's department. Mr. and Mrs. troop. Watson will be represented by Attorney Charles E. Moore

No doubt the case will be heard in the coming term of court and, because of the human plete troop of 32. interest in the case and the interest that is being taken in it by State's attorneys, is sure to

say it is more important to keep it still.

### New Liquor **Control Laws**

### Boy Scout Doings

of Boy Scouts traveled to East Lansing where they were guests of the Michigan State College Athletic Association at the Michigan State vs. Grinnel football

game.
The day was a perfect for football. There were in the respectively. The best per capita neighborhood of 3500 Boy Scouts record of American cities compresent making the crowd a parable in size reported \$1.47 and very colorful one. The several school bands and Scout bugle and drum corps were at their

The first quarter of the game brought out some fine play each team with State on top with a 7 to  $\theta$  score. In the second quarter the State attack got under way and although Crinnell wooden building fought back gamely and were than in Europe. aided by some fine punting by Bradley, a Harbor Springs boy, the final score read 41-0.

At the half the Scouts paraded around the cinder track of the stadium. A score or more American flags massed behind the leading band and the numerous scout troops with their flags presented a sight that few scouts will forget.

The Scout Troop wishes to son's action is backed by the second car with another load.

State welfare commission and Also Mr. T. P. Peterson for sending a car and Mr. Poor for driving one of the cars.

Plans are being made for next year when another such trip will be in order for the local scout

Since April 30, 1935, elever scouts have been added to the rolls. This gives us a good start on the third patrol and only one more patrol is needed for a com-

### CARD OF THANKS

We acknowledge with Mrs. Simon Sivrais and Family. Fire Prevention Week Oct. 6 to 12 ASK YOURSELF THE QUES-

Let us find out something about you-something that you may not even know yourself. Are you careless? That makes you stop and think a bit, doesn't it? You had never considered it in quite that way, but if you are honest with yourself, the answer probably will be "Yes," for alvices will be prohibited from all most everybody in this country is careless; that is the principal reason why we have so many

Here are some figures that should open our eyes. In 1924, the average fire loss for each man, woman and child in France was 49 cents; in England it was 5—Employees and entertainers 72 cents; in Germany, 28 cents; will be forbidden to mingle with in Austria, 25 cents; in Italy, 25 cents; in Switzerland, 15 cents; and in Holland, only 11 cents.
In the United States for the same year the direct loss was over \$4.00—and the indirect loss was far higher. Our record was, therefore, nearly ten times as bad as that of France, and over forty times as bad as that o Holland. In 1926, the American fire loss rose to \$561,980,751, a fire waste greater than any nation ever had suffered before in the history of the world. with a population of 118,628,000, our per capita loss amounts to

Birmingham, England and Giasgow, Scotland reported losses for 1925 of 57 cents and \$1.00 \$2.97 in the same year. York City's fire losses were about four and one-half times as large as those of London. A similar comparison might be made with many other cities. Can we be proud of such figures?

Carelessness The Greatest Cause
Of course, there are more
wooden buildings in America This is a conlition which will take many years to change. But the most serious cause of fires could be removed at once if all the people would assist; this cause is found in one word—carelessness.

The National Board of Fire

Underwriters makes a study of hundreds of thousands of fires, and has tables which show that in five years 25.4 per cent of all American fires came from strictthank Mr. Welsh for taking one ly preventable causes, while 42.8 load of scouts and for sending a per cent were partly preventfrom unknown causes, which probably were largely prevent-

It must then be admitted that the United States, with all its advantages, is a nation of careself in many habits of recklessness, wastefulness, and untidiness. It burns our towns and forests: it leads people to risk and other places of danger; takes chances with health; it

WHO AM I? I am more powerful than the combined armies of

### OPERATORS' LICENSES SHOW BIG INCREASE

Evidence that automobile op erators of the state realize the necessity that they carry operator's licenses, is given by figures State. These show that operators' and chauffeurs' licenses issued for the first six months of 1935 totalled 528,532, as contrasted with a total of 279,519 for the same period of 1934. The number of drivers has not increased materially; the explanation lying in the fact that at times in the past there have been as many as 200,000 unlicensed operators on the high-ways. Fifteen cents of the dollar charged by the state for each of the licenses is returned to the treasurer of the city, county or village in which the license issued. These returns totalled tion will receive prompt and per-\$19,867.00 for the first half of 1934; \$78,935.00 for the first half

We sincerely thank all our neighbors and friends for their many kindnesses and for the floral expressions of sympathy during our recent sorrow.

Mrs. Herman Hanson.

Mrs. Hansine K. Hanson and Family.

The Wolverine will arrive in Grayling tonight (Thursday) at 11:00 p. m. and will leave at 11:00 p. m. Friday. It will be opento the public during the entire period. It is being brought here through the

### Old Age Pension Requirements Explained

courtesy of the Michigan

Central Railroad.

It is the intention of the Old Age Assistance Bureau to speed as much as possible the work of investigations and the granting of assistance to those aged persons of our state who are in need, Dr. Philip A. Callahan, Chief of the Old Age Assistance Bureau, said today in Lansing. The Buteau is well aware of the inadequacy of the amounts that are being granted, but is unable to overcome the pressure of the present emergency through limited funds with approximately 48,000 applications which far exceeded our expectations. The work of checking these applications is being delayed because of the universal misunderstanding of the terms of the Old Age Assistance Law, he said.

The new law which repealed

the 1933 Old Age Pension Law allows assistance under certain conditions to the aged residents of the State of Michigan who are in need, Dr. Callahan said. Such assistance in no way can be considered as a pension something to which a person is entitled simply because he or she has reached the required minimum age, but is public relief paid from the general fund

A person to be eligible for assistance under the Act must meet the following requirements: must have attained the age of 70 or upwards; must be a full citizen of the United States: must have been a resident of the State for at least ten vears immediately preceding his application; must have no child or other per-son responsible under the Laws of the State able to support him; must not be because of physical or mental conditions in need of such continual institutional care: ceed \$3500.00, or whose personal property with the exception of household goods to the value of \$500.00 does not exceed \$1000.00. Persons having real or personal property of this value or more re ineligible for assistance.

This Act is not intended to aged persons who are still able less people. Carelessness' is not to care for themselves or who a thing to be proud of; it is a have children responsible under great national sin. It shows itfound able to care for them.

There is much confusion and misunderstanding relative to the assigning of real and personal their lives at railroad crossings property of the applicant to the it State, Dr. Callahan said. Each is applicant is required to give a The posture experts tell us to beautiful expressions of symbol the chin in, but some folks pathy in our late bereavement.

Jury Panel.

The following have been drawn for jury duty for the term: GRAYLING—Amos Hunter, Rosa M. Parker, Leonard Isenhauer, Ernest Larson, and

Minnie Isenhauer.
Frederic—Jessie Pratt, Baldwin, Theodore Ridgway, and Henry Verlinde.

Beaver Creek—Jessie B. Hat-field, James M. Nowlin, Ray Skingley, and Hjalmar Morten-

South Branch Boyd Funsch Henry F. Scott, Elmer Head, and Edith McGillis. Lovells—Alfred Nephew. Charles Miller, and Bessie Kel-

Maple Forest-Bert Plagens, Jay Skinner, Wm. J. Bigham and C. C. Fink.

Later: There will be no jury eases heard so on order by Judge Smith the jury was discharged and will not appear.

### DEMANDS CIVIL SERVICE

izenship made in an address last week demanded that the patronage evil be abolished and that a real civil service system be established in Michigan. He referred problems which so hampered his work in the early days of his administration. His legislative program was defeated in part because of disappointed job-seek

He declared that in so far as it lay within his power he would abolish the old evil. A civil service commission is to be appointed soon and it is planned that its proposals be submitted to the legislature, possibly in a special session.

Governor Fitzgerald is ad-

mittedly facing political extinction in his fight on party patronage but he feels that it will be well worth the effort if in the future no governor has to deal with the problem which he faced last January when he entered upon his duties as governor of

Age of the Horse The first five years of a horse may be considered as equivalent to the first 20 years of a man; thus, a horse of five years may be compara-tively considered as old as a man of twenty; a horse of ten years as a man of forty; a horse of fifteen as a man of fifty; a horse of twenty as a man of sixty; of twenty-five as a man of seventy; of thirty as

### Trout Food Of **Trout Streams**

A lot of members of Grayling Kiwanis club missed a fine talk Wednesday because of their entomologist, spoke of "Trout Stream Insects," and revealed the average layman.

President Clarence Clippert being absent from the city, the meeting was conducted by Emil Giegling and was opened with the usual ceremonies. Mr. Bayard Buchen, educational advisor tor Camp AuSable, was a guest and acknowledged his introduction by expressing his appreciation of the cooperation the people of Grayling had given them in

Supt. Gerald Poor of Grayling schools gave an outline of their plans for the boys and girls of Grayling for Hallowe'en night. Games and entertainment will be provided. Mr. Poor was assured the cooperation of the Kiwanis club in this work.

Trout Stream Insects.

Prof. W. F. Morofsky, entomologist for the Michigan State College, East Lansing, now on a leave of absence for several months, is stationed at CCC Camp AuSable, where he is studying the trout streams of this part of Michigan for the purcase. Four more similar cases pose of acquiring knowledge as appear against the said defend to the variety of food that is

been examining the stomachs of trout to ascertain what insects they feed upon. During that time I have examined and studied over 2000 trout stomachs.

I have found that brook trout feed largely upon nymphs or fish flies. These latter are stream insects and for the first seven years of their lives they live in the water. Leaving the water they live but about 48 hours. The second choice of food of the brook trout is the caddis fly.

Brown trout feed largely upon the caddis while still living in the water.

The rainbow trout eat anything and found within rainbow stomachs have been mice, birds and snails. After the rainbow reaches about 17 inches in length they live largely on a

vegetable diet. Other insects eaten by brown trout are ants, both black and red, and at times their stomachs are filled with them. Ants get into the streams by falling off the grassy banks into the water and are easy prey to the browns that await them. Another favorite insect of the brown trout is the damsel fly, a cousin to the devil's darning needle. Rainbows are on records as

Governor Frank D. Fitzgerald eating almost anything that is

The presence of beaver dams in a stream means that there will no longer be any insect life nere.
Speaking of the North Branch

of the AuSable river Mr. Morof-sky said that he considered it the most beautiful trout stream that he knows about anywhere. And this fine stream has plenty of natural food for feeding many times as many fish as there are now in that stream. It is a natural brook trout stream and is well stocked with fish.

The speaker answered many questions that were fired at him after his address, indicating a real interest was taken in what he had to say.

In reply to the problem about the millions of worms that have been infesting the oak trees in this part of Michigan this year, he said that it was his belief hat they would not rec it next year and that they would perish from starvation.

### H. G. WELLS FORSEES ANOTHER WORLD WAR

In 1913 British statesmen scoffed when Wells predicted a World War, yet within a year's time the storm broke. Now, Wells orsees another and more terrible on flict. He describes it in "Things to Come" a serial which appears in This Week Magazine in Sunday's Detroit News.

Many of the smart talkers know all about the money ques tion, except how to get some of

### Top O' Michigan **Potato Show**

Old exhibitors at the Top O' Michigan Potato, Apple and Seed Show will recall John Tucker from the Department of Agriculture of the Dominion of Canada, who acted as judge of the potato division of the show in 1931 and will be pleased to know that he has been secured to act in a similar capacity at the show this year, which will be held at Gaylord, October 30, 31, and

November 1.
Mr. Tucker, who has been recognized as an international authority on potatoes, is Chief-of Seed Potato Certification in Canada and President of the Potato Association of America. In addition to the judging work the "Potato Ambassador" will tell the 4-H Club members and Smith-Hughes students about Boys and Girls Club Work Canada," on October 30, and on October 31 will address the po-tato growers on "Efforts to Stabthe Potato Industry in Canada.'

The addresses by John Tucker, of Ottawa, Canada, will be a part of an entirely new type of program, which is being offered the patrons who attend the Twelfth Annual Top O' Michigan Show. Wednesday, Oct. 30, is to be devoted entirely to 4-H Club work and Smith-Hughes work. Carl B. Brown, Smith-Hughes teacher of the Harbor Springs high school who has charge of this program, promises all boys and girls an interesting day of discussions, amusement and com petitive judging contests. On Thursday, October 31, the second day of the show a program of general interest is being planned by the management of the show, in cooperation with several of

the potato and apple growers. Marketing conditions and a discussion of the AAA potato program will be the themes for the day <u>meetings,</u> and a surprise program is being planned for the panquet, which will be held in the evening. B. C. Mellencamp has announced that 9 rural organizations have made entry in the Rural Drama Contest. The hree outstanding plays will be selected for presentation to the patrons of the Show on Friday, November 1.

### Luffa la Gourd

A luffa is a gourd commonly called rag-gourd; dishrag gourd, and vegetable sponge. The young fruit is cooked like squash and eaten in soups or stews. Sometimes it is sliced and dried. In this country, luffas are grown mostly for curios and ornaments. The fibrous interior of the dried fruit, when bleached and prepared, is used as a sponge for the bath and for scrubbing

(By Congressman Roy O. Woodruff)

Following President Roose velt's trip through the west some months ago where he visited several large dam projects being constructed up in the Columbia and other rivers of that ate enough to boast of a radio section, I called attention to the fact that these activities would fact that these activities would the late Peter Nelson property intensify in a great degree the on Maple street and will be movfarm problem now facing the na-

> Nearly all of the new projects are being constructed as a part of the public works proresult of the brain storms of the braintrusters now running the

country. More than a year ago, Presith€ duties at "Nellie's", which she building of the Grand Coulee is spending with relatives at Dedam for "power purposes" and

At that time I pointed out that this "power" project would, in the near future, develop into another irrigation reality, and that the construction of this dam would become just another hazard which the farmers of the country would have to face.

My prophesy has already come Mr. Roosevelt has approved an increase in the cost of the project to \$393,000,000 an amount nearly four times the cost of Muscle Shoals, more than twice the cost of Boulder Dam, and an amount more than twice as large as would be needed to complete the St. Lawrence Waterway to the ocean.

The Grand Coulee project is at last "in the open" and is now conceded to be exactly what its promoters intended it to be from the first an irrigation project. It will bring into production 2,000,000 of the most\_fertile acres in the land. The products of those acres will be thrown upon the market in competition with the products of the farms now under cultivation in Michigan otner ažricultural states.

Under the AAA about 30. who had acres of farm land are taken out of cultivation this year This has cost the consumers \$550,000,000 in processing taxes. While this is being done, the brainstormers have gone merrily ahead with the Grand Coule like projects The one I am dispussing is largest of these. Just how many millions of acres of irrigated farm lands will be brought enstriction under this program

the Lord only knows.
The fact that the people magogue or church on October DW processing taxes in the the or 5th. The Christians will amount of \$550,000,000 per year reimburse the farmers leaving a portion of their acres ing the 6th hampeductive is conclusive the following program will be dence that the authorities:

It seems a tragedy that there are running the gountage 11 At Morning Worship. Sep. who, with one hand spend hun dresis of millions of collars at take land out of production, and at the same time spend other hundreds of millions of dollars to I to a clock -Open house at bring other lands into produc

the parse are a manufacture and this program just described that it for taxpayers as a few five framework of the framework of the framework as a few five framework of the former from the farmers from the farmer pay for this stays.

Mrs. Adam Gierke returned her son.

Mrs. Clarence VanAmberg is intertaining her cousin from Alger for a few days.

Mr. and Mrs. Julius Gelisse

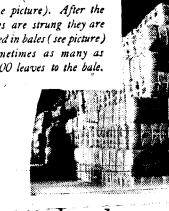

### AROUSED MUCH SPECULA

The rather unprecedented ac tion of the supreme court in the ease of Elliott vs. Voelker in askhas aroused a great deal of dis- September ment and it is thought that he will, be given an opportunity to hear the case. In the event that the court then stood four to four, the situation will be interesting. In a quo warranto procerding the burden of proof is in the defendant and in this case Or. Voelker is supposed to show hat he is entitled to the office. If he has not done so as indicated by an equally divided court, the Elliott forces would doubtless ask for a court order placing Elliott in the office of superintendent of public instruction.

In any event the case has still several interesting angles. The public has watched it closely and will await the outcome with great deal of interest.

Massachusetts' Famous Lake Lake Chargoggagocgmanchaugga goggehaubunagungamaugg, which is one of the largest in Massachusetts. is located in the southern part of the state, in Worcester county, just across the border line of the extreme northeastern corner of the state of Connecticut. The spelling of the name is usually abbreviated to the last six syllables on the map. and means, according to Sargent's New Bagiand Guide: "Too feb on your side, I fish on my side, nebody shall fish in the middle."

he leaves of Turkish tobacco are strung one by one like beads (see how it is done in the picture). After the leaves are strung they are packed in bales (see picture) \_sometimes as many as 80,000 leaves to the bale.

We have on hand at all times for CHESTERFIELD cigarettes upwards of 350,000 bales of Turkish tobacco . . .

> The pleasing aroma and flavor of Turkish tobacco is almost necessary if you want a good cigarette.

Turkish tobacco is more costly when you take into account that you have to pay 35c a pound duty, but we have to have it to blend with our mild ripe homegrown tobaccos.

It helps make Chesterfields milder, it helps give them better taste. Just try them.
